

HAZCHEM

PALLETISED DISTRIBUTION

THE HAZCHEM NETWORK

We are also members of The Hazchem Network – a pallet network dedicated to the safe transportation of hazardous loads. Through this service, we can offer same day collections for both 24 and 48 hour deliveries for hazardous parcels, single and multiple pallets.

We can carry classes 2, 3, 4, 5.1, 5.2 (selected), 6.1, 8 & 9. This service is operated from a specifically designed centralised hazardous hub, managed by a highly qualified ADR team. Here at C S Ellis, we are approved ADR specialists and we work together with the Hazchem team to ensure the overnight safe delivery (or collection) of your hazardous goods.

Please give our team a call on 01780 720133 for more information on this service.
